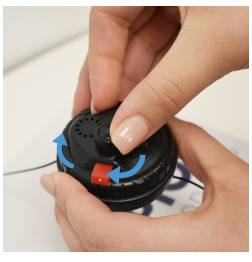
***DO NOT USE DETACHER FOR INSTALLATION, ONLY FOR REMOVAL OF THE SPIDER WRAP**

1. Pull "Pull Tab" completely out and expand spider wrap by pulling top and bottom apart. Press red button completely in.

2. Position top and bottom in center of object you are securing. Wire should be positioned on each side.

3. Turn spider clockwise to tighten. Ensure that spider wrap is snug around product.

DISARM/REMOVE SPIDER WRAP

1. Use S3 key to disengage spider wrap. Align spider wrap with the 'S' on the S3 key. Once aligned, push in on the red button to release.


2. To retract spider wrap for re-use, turn clockwise. Repeat steps 1-3 in section above to secure another product.
