## SCORPION SELECT PHONE INSTALLATION VIDEO

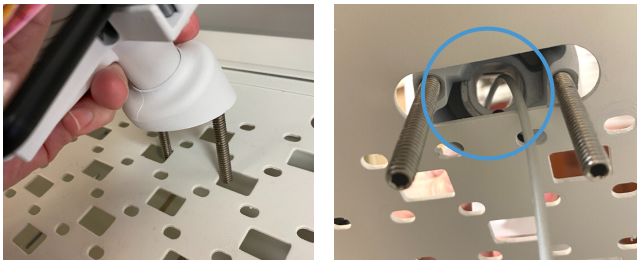

1. To mount Scorpion to fixture, use supplied blue key to unlock, and remove the top from the base.

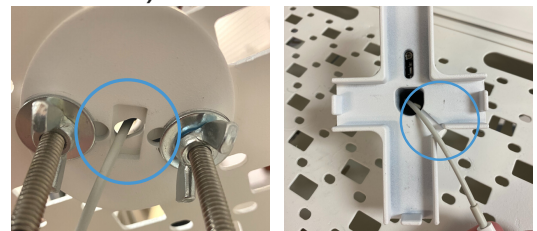

2. Remove both wingnuts and the under counter plate from the base.

3. Align the studs with the holes in the fixture. Feed the charging cable up through the base of the Scorpion.

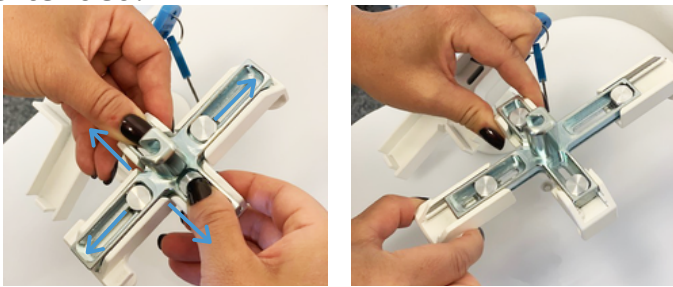

4. Feed the charger through the under counter plate. Next, tighten the wingnuts on both sides until secure. (There is a notch in the base, set the cable there)

## SCORPION SELECT PHONE, XL PHONE & TABLET INSTALLATION INSTRUCTIONS

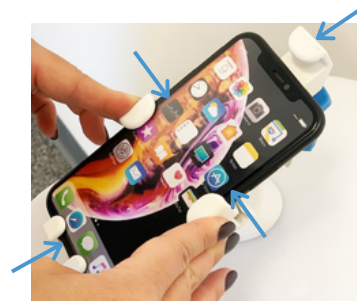

5. For the top, using the press buttons, press on both top and side legs until they are fully extended.

6. Center the device in the Scorpion.

7. Once device is centered, press on push buttons to tighten the legs to the device.

8. Place in the base. Press lock to engage and fully secure the device.

9. Plug in charging cable.
