*DO NOT USE DETACHER FOR INSTALLATION, ONLY FOR REMOVAL OF THE SCORPION SECURITY WRAP

1. Pull "Pull Tab" completely out and expand Scorpion Security Wrap by pulling top and bottom apart. Press red button completely in. ***IF SCORPION SECURITY WRAP DOES NOT FULLY EXTEND, THE CABLE MAY BE SLIGHTLY ENTANGLED. PLEASE APPLY FORCE TO RELEASE TO THE PROPER LENGTH.**

2. Position top and bottom in center of object you are securing. Wire should be positioned on each side.

3. Turn Scorpion clockwise to tighten. Ensure that Scorpion Security Wrap is snug around product.

Disclaimer: If wires become tangled, rotate knob counter clockwise to untangle

DISARM/REMOVE SCORPION SECURITY WRAP

1. Use S3 key to disengage Scorpion Security Wrap. Align Scorpion Security Wrap with the 'S' on the S3 key. Once aligned, push in on the red button to release.

2. To retract Scorpion Security Wrap for re-use, turn clockwise. Repeat steps 1-3 in section above to secure another product.
